

JOHN LLOYD AGUIRRE

Full-Stack Software Developer | Mobile & Web Developer | Systems Integrator

📞 (+63) 928-436-0121 ✉️ jlaguirre2019@gmail.com 📍 Mankilam, Tagum City, Davao del Norte

PROFESSIONAL SUMMARY

Results-driven Full-Stack Software Developer with demonstrated experience building enterprise-grade systems, mobile applications, and cloud-integrated platforms. Skilled in architecting and delivering end-to-end solutions — from database design and RESTful APIs to responsive frontends and real-time mobile apps. Experienced across PHP/Laravel, Kotlin/Java (Android), Java Desktop, and modern JavaScript frameworks. Proven track record in freelance project delivery, government internship, and corporate system development. Works across multiple domains including POS/inventory, HR/payroll, logistics, cooperative finance, and ride-sharing.

TECHNICAL SKILLS

Languages:	PHP, JavaScript, Kotlin, Java, Dart (Flutter), VB.NET, C#, HTML, CSS, SQL
Frontend:	Vue.js, React, Quasar, Bootstrap, Blade Templates, Pinia/Vuex
Databases:	MySQL, PostgreSQL, SQLite, Firebase Realtime DB, Firestore, Supabase
Tools:	Git, VS Code, Android Studio, NetBeans, XAMPP, Postman, DomPDF, PhpSpreadsheet
Backend:	Laravel 8/11, Livewire, Filament Admin, RESTful APIs, JWT Auth.
Mobile & Desktop:	Android (Kotlin/Java), Flutter, React Native, Java Swing/JavaFX, VB.NET, C#
Cloud & APIs:	Firebase, Google Cloud Storage. Cloudinary, Supabase, Google Maps/Sheets/Calendar API, PayMaya, Nexmo/Vonage SMS.
Other :	Networking, Hardware Technician, IoT Prototyping, System Documentation, Client Training.

WORK EXPERIENCE

Full Stack System Developer / Web Developer

Aug 2024 – Sept 2026

TL Mabuhay Group of Companies

- Developed the Quarry Management System using Laravel, Livewire, and Filament for materials, vehicles, and production reporting.
- Built the Mabuhay Printing Press Management System for job orders, client tracking, and production scheduling.
- Built the Marketing Operations Portal for lead tracking, campaign planning, branch reporting, and design requests.
- Developed FusionServe POS for restaurant order entry, kitchen display routing, receipts, and shift reconciliation.
- Built the Inventory Management System for stock tracking, suppliers, purchase orders, waste logs, and offline sync.
- Designed and maintained MySQL database schemas and migrations, ensuring data integrity across systems.
- Delivered responsive, cross-device interfaces using Blade, Livewire, Bootstrap, and React.

Programmer

Mar 2024 – Jul 2024

CityHallofTagum–Programming Department

- Designed and developed the complete full-stack **Job Management System**, including database schema, migrations, API endpoints, and role-based authentication.
- Built a dynamic **Vue.js + Quasar** admin interface for job listing creation, editing, and management with role-based access control.

Developed the **Job Viewing Kiosk** frontend — a real-time public kiosk interface supporting job browsing, filtering, and detailed job display for walk-in users.

Delivered complete technical documentation and conducted user training for department staff.

Freelance System Developer

2021 – Present

Self-Employed

Delivered multiple end-to-end custom software solutions for various clients across web, mobile, and desktop platforms — from scoping and estimation to deployment and ongoing support.

Translated client requirements into working deliverables, produced system documentation, and provided on-site training and maintenance.

PROJECTS AT A GLANCE

Project	Platform	Tech Stack
Quarry Management System	Web	Laravel, Livewire, Filament, MySQL
Printing Press Management System	Web	Laravel, Livewire, Filament, MySQL
Restaurant POS & Inventory System	Web	Laravel 11, Filament, Supabase
Letecia Farm Booking System	Web	Laravel 11, Filament, MySQL
Laundry Express	Android Mobile	Kotlin, Java, Firebase
Hakot Basura	Web / API	Laravel, Firebase, PHP
Loan App	Desktop (Java)	Java, Firebase, Swing
Job Management System	Web	Laravel, Vue.js, Quasar
Payroll System	Web	Laravel, MySQL
VB.NET POS Systems	Desktop	VB.NET, SQL Server

EDUCATION

Bachelor of Science in Information Technology

University of Mindanao College Tagum

2021 – 2025 | Graduate

ICT Major in Mobile App & Web Development

STI College Tagum

2019 – 2021

High School Graduate

Assumpta School of Tagum, Inc.

2016 – 2019
